## HOW OFTEN TRAGEDY STRIKES!

James Butler of First Baptist Church, Oxford, Alabama, Caused me to stop and think. I wanted to share his thought provoking article with you:

"The newscasts Wednesday afternoon and Thursday told of a terrible tragedy in Hendersonville, North Carolina. Reports are coming of various ones who might have been on that flight. One man from Birmingham had a toothache and missed it. A soldier left Tuesday instead of Wednesday and was saved. All of us have felt the pang of sorrow for the families of those who perished. All have felt—'My if only the smaller plane's pilot had looked where he was going or heeded certain safety measures the accident could have been averted.'

"All accidents are caused by someone making a mistake. This is true in life. Tragedies in life are terrible because people make mistakes. They fail to heed the safety warnings. Lives are lost and souls are lost because of mistakes. These are made by parents who fail to give their children the proper flight pattern for life. They take off in stormy weather and fly too low and in the wrong lane, thus causing death and destruction.

"1. It is a mistake for parents to provide everything for their children except Christian training and example.

"2. It is a mistake for parents to leave the church and its program of Christian nurture out of its plans and schedule.

"3. It is a mistake to teach children how to figure taxes and pay monthly bills and not teach them to tithe.

"4. It is a mistake to encourage children to participate in various games, brush their teeth and keep a good appearance and not encourage and lead them to accept Jesus as Saviour.

"These mistakes are littering our highways, airport runways, and countrysides with the debris of souls that could have been saved—but somebody made a mistake. Don't make the mistake of being absent this Sunday. Be present with your Bible in your hand and a prayer in your heart."

I'll look forward to seeing you Sunday.  
Faithfully your pastor,

## LIBRARY NOTES

"You and the World Around You" by Millicent Selsam is written in simple yet vivid language and introduces very young boys and girls to the world of nature in such a way as to make them feel right at home in it.

Where does the rain go and what does it do after it falls? How is soil made? How do plants and trees grow?

Describing these wonders, the author stimulates the child to observe the world of stars, plants, seashells, trees, birds, and animals—and to learn about himself, too, because he is the only growing animal who can think and talk!
